What is Build to Prosper?

A Limited pilot opportunity for small credit union members of AACUC to have full access to a robust, holistic financial wellness program with financial counseling and financial education where AACUC covers the cost for at least the first year.

Have you dreamed of a robust and holistic counseling and education program for your employees and members?

What we heard

- Limited Resources of Money, Time, and People
- Unsure where to start
- Investments in programs not yielding results
- Often forced to be reactive instead of proactive
- Modernized technology often out of reach
- Shouldering too many responsibilities

What does this include?

- Financial Counseling
- Financial Education
- Partner Experience Support
- Employee Financial Wellness
- Impact and Outcome Reporting
- *the kitchen sink 😊

Does this sound like something that your credit union could use?

What's next?
